TOUCHSTONE
AEGIS.net

Touchstone is an easy-to-use platform used to develop and deploy the most interoperable and secure healthcare applications. The HL7 FHIR standard is rising to the top of healthcare technology priorities because it delivers fast and efficient health data. Our team of experts has implemented the most advanced FHIR Testing platform for you to use anytime, anywhere. Touchstone is available as a cloud or on-premise capability today for Healthcare technology implementers and integration partners.

Build. Validate. Share. Continuously.

Powerful Results. Delivered.SM

Today's interconnected world requires interoperability and assurance that both internal and external changes provide value and positive impact for the end customer

AEGIS.net, Inc. (AEGIS) provides technology products and services that help organizations translate their strategic business goals into IT initiatives and solutions that significantly improve performance while reducing risk and cost, solving even the most complex problems.

AEGIS is a CMMI® Maturity Level 3 (DEV and SVC+SSD v1.3) appraised small business and premier provider of Information Technology consulting services to Federal Civilian, Defense and Commercial sector clients. Since 1996, AEGIS has provided trusted advisory leadership and support to our customers.

Our mission is to ensure the long-term success of our clients by making certain that every dollar invested in our services is a wise and solid investment in the future of their business in a systems-connected enterprise environment.

"In a highly competitive market like ours, we depend on business partners that get the job done right the first time. We've learned we can count on AEGIS. Their dedication to quality and the depth of their experience is evident in every project we have entrusted to them."

Satisfied AEGIS Customer
